all parts of the country by mail.

Corn Planted by Machinery. SUBSTITUTE for the slow and tedious process of planting corn has long been a cestieratum; but un-tor the labored efforts of inventive penius has failed in its production, though years and much money have been spent to accomplish so great a piece of mechanism. Some estimate of the Importance of an invention that will materially facilitate the production of this great staple may be formed from the fact that in 1816 near 800,000,000 buthels were raised in the United States, exceeding in value all other grains, with the entire cotton crop in ad-

The present universal method of planting this great crop (after the ground is ploughed) by marking out the surface 8% or 4 feet apart each way, and in the angles thus formed a man drops 4 or 5 kernels and covers with a hos at an expense of \$1 to \$1 95 per acro; but followe of part and sometimes the whole erop results from the difficulty of outsining sufficient force at the proper time in the spring to secure the planning at the most critical period.

Proteiled men underdand this consumers. Numerous levices and muchines have been made, but failure has only resulted. A plan perfect in one respect was certain to fail in another, so as to render the whole worthless. No machine until now has been made to meet the unireal depend of the haming interests in Hible, chick or angular planting, so as to enable him to cultivate with ough and horse-hoe the cop-both ways between the Dil 1 planting is abandoned because of the impossibility

of cultivation in but one direction.

The long wished for machine has been invented and perfected by a young Mestelman, and is the result of three case in wearief effects, as lent investigation and the ap-The device is entirely new, simple and heautiful, working auto-ically and yet so incomesly and naturally as almost to appear the result of instinct.

What Whitney's great invention did for conton this greater invention will do for conton, namely anginent the quantity No description could convey a clear idea of its peculiar and simple medianism,
Billouf any Cods, Pand, Pullius, Changs, Fharts,
Erminos, Levine, or Graines of any kind, with a buse,
guided by a man or buy, this machine executes in a neal
and perfect manner the following described wors, being

what is wanted by every farmers-1st. For oweng the ground any rejulted death ad. Drops the core (as many kernels as de ived) In a space of 4 inches miameter ma hemotically in the HILL, equi-dictact, in one-tenth of a second. id. Covers the HILLS and presses the earth as you do

4th. Marks netually the conition of each HILL, 5th Deposits, if wanted, guano, pondrette ashes time dister, or other common fertilities, easily in the HILL. And 6th Also, sticks the pumpkin or squash seed in the IILLS at the usual distances as now done by hand. And ata this at a cost of 15 cents an acre by single mahipe, and Weents per acre by a doublecon. - 10 acres he or planted by the first, and 16 by the second, in one day, with no more force than a man and horse.

We are aware these statements look facelful to that large, stereotifed, old fogy class, who are about a quarier of a contury in the rear of this processive age, and whose ideas revolve in the old also couch train; but we assume all suc's antiquated gentlemen that ever word is literal na-ked unraditerated truth, obvious, c'ear and distinct to the most obtuse intellect or the dullest combrehension, besides eles demonstrated by accualuse on an expensive scala. Here is a magnificent Monopoly of a great staple Machine, of immense intrinsic value. It must reach the large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be blest in the increased production of grain, and come quently cheap bread. In the distribution of this splendid prize, (such it really (s.) there is a rare change for a safe investment, fuerally All New England and Southern States fire courts per form. All other territory, six cents per form—except illinois, which will be ten cents per form; Minnesota, \$1,000; Kanna and Nebraska, \$500, California, \$601.

New York State will be said to countles to said parties who wish to invest in limited sums. The consus of the United States of 1820 will be the by It of estimate Terms of payment liberal and accommodating; and to a ompany who wish to take the entire interest, we will sell at a fair figure. We tay is the public to examine this subspecially to those who take an onere t in the material pre-gress of this inventive age, as well as to those who cannot ad to fin t this an avai able medium of reviewshing their exhausted pockets, or augmenting their already ample re-P. S - We have made provision for the slipply of all or-ders for machines at \$18 each with fertilizer, or \$15 with

out-retail; (% off wholesale) until the Tarritory from which such orders come to sold; and when transferred will make an equitable discount in price of territory, for machines thus delivered. Each purchaser of States on trols be making, seiling and price to their territory; and if not ready to manufacture for ensuing opring sales, we still furnish by 1:0's or 1 000's at a shade advance on cost, leaving a marginer Towart to mainly the most exacting capidity.

Facts About Ambrotypes. MEROTYPES were "Introduced" in Nashville A LANCOMBE.

Ambrotypes are made nowhere else in Nashville than at te Ambrotypes Rooms, No. 40 College St.
Ambrotypes are made upon a double plate glass, hermetically sealed, and thus protected against all possibility of inambrotype Counterfelts are made on single glass, not scaled, and are not so durable as an ordinary daguetreotype.

Ambrotypes were so named by the Inventor to distinguish them from all other pictures. Other men borrow the name, and apply it to an inferior plesure which lucks the main wints of an Ambreigne tone and durability

GAS FOR COUNTRY HOUSES Steamboats. PATENT BENZOLE GAS. MOUNTRY Rights and State Bights for sale. The only

Bensule Machine that will give a good light.

The entire apparatusts single, occupies but hitle room, and prires little or no attention except winding up similar to The organise is one third less than ordinary Ocal Gas, and makes the handsomest and cheapest light in the world. It can be seen in practical operation at Henderson & tires., Deaderick street. Any person wanting their Houses lighted, can be emplied immediately, they having made a contract for the furnishing of Davidson County, and solicit orders. NO HUMBUG!! THE undersigned have purchased the Patent right of DOUBLE ACTING BALL VALVE

Force and Lift Pump, For the States of Tennessee, North Carolina, South Carolina, orgia, Florida, Alabama, Mississippi and Louisiana. We have tested the Pump in all its recommended uses for ordinary purposes—in wells, and as fire engines; and hesitate not to say that it is superior to any pump now in use. It is simple and plain in its construction; can be taken to pieces or put together by any ordinary man, black or white, in half a minute. There is not a screw or bolt about the pump; there is the least imaginable friction—hence its durability. It is almost impossible for it to get out of fix by usage. When used for a well or eistern it can be converted into a Fire Engine in one minute, and by one man water can be thrown over the fallest houses in the country. It is invaluable as a Fire Engine, and especially in the country or country towns. It is equally well adapted to all machinery, Railroad Tanks, &c., and will, when known, superscede all other pumps. It can be used for either hot or cold water.

Having fully satisfied ourselves as to the capacity, value and utility of the Pump, we are ready to make sales of the above territory by counties or States, (except the Western District of this State, which has been sold.) We confidently recommend the Pump to the citizens of the States mentioned. The Pumps are cheap, and therefore within the reach of

ARE YOU SICK!

THEN you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too lute. Four fifths of all the diseases which people the church-yards might be cured by Ayer's Cathartic Pills, if church-yards might be cured by Aper's Cathartic Fills, if taken in season. Don't go dragging through the fipring, faint, sleepy and listless because your blood is loaded with bile. Don't wear the heat ache, heartburn, and their kindred disorders, because your stemach is fevt. Don't parade yourself around the world, covered with pimples, blotches, ulcers, seres and all or any of the unclean diseases of the skin, because your system wants cleaning. Don't show yourse's about, lean, haggard, all caved in, because your Stomach and Bownia need strengthening into healiby action. Ayer's Pills set there things right as surely as water quenches. They purify the body and blood, and rewater quenches. They purify the body and blood, and resters their functions into healthy activity, which you can feel as quick as they are taken. They are the one great medical wonder of this age, recognized by all who know their virtues, and many thousands know them. Take the

their virtues, and many thousands an without Take the Cherry Perfored for a Cough, and the Pills for all derangements requiring a pugerative medicine.
